Art Unit: 2837

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 10-16 and 20-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 10 "they grew and/or the spring---" have no proper antecedent basis. It appears that the claim was intended to depend from claim 9 rather than claim 8. Correction of this dependency would negate the antecedent basis problem for claim 10 and its dependence. Claim 11 does not read properly. It appears that in the last line "lies" should be omitted, or else Mark text should be added in order to make its inclusion read properly. In claim 19 "the insertion taper" has no antecedent basis in either parent claims 1 or 18.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-8 are rejected under 35 USC 102 as being anticipated by German (487) [DE 19,715,487]. Looking at figures 3-6, the reference teaches a piezoelectric actuator stack #1, the first Bush element #8, and a second Bush element #4, two connecting pins, #3, the connecting pins being inserted into through holes in the second Bush. Since there is a close fit between the pins #3 and the holes in #8,, the connection

serves as both an and tight tilt, anti-rotation and prevents transverse movement of the joint.

Claims 9, 18, 23, and 24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 10-17 and 19-22 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
